## Hello friends!

As winter settles in and the year begins to unfold, we are reminded of the warmth and comfort that a home can provide, especially during these colder months. At Happy Home Furniture Bank, our mission to provide quality, gently used furniture to families in need continues to grow, thanks to your unwavering support and dedication. We are so grateful to be part of a community that believes in the power of home and the comfort it brings.

In 2024 alone, we were able to furnish **160 homes**, bringing our total to **321 homes since our launch in January 2023**. This means that over **530 men, women, and children** across **35 counties** are now sleeping in their own beds and living in safe, welcoming environments, thanks to the support of our dedicated donors.

Every piece of furniture provided has helped create a space that promotes dignity, security, and stability for families in need.

Thank you for joining us in making such a positive impact!

## But wait! Our work isn't done!

### WE NEED YOUR HELP MORE THAN EVER

In addition to the referrals we regularly receive from our Agency Partners, Happy Home Furniture Bank will be part of an important project effecting dozens of families and individuals. The effort will involve fully furnishing nearly 60 homes. There will be more details to come later this month. In the meantime, we are busy preparing and especially need your donations of household furnishings and financial support.

As mentioned, this upcoming effort to fill nearly 60 homes is in addition to our typical deliveries. If you can help with sourcing home furnishings items, warehouse storage racks, or logistics, please reach out to our Executive Director, Christy Spence, at [christy@happyhomefb.org](mailto:christy@happyhomefb.org).

# Immediate Needs

As we continue to grow and serve our community in BIG ways, we are currently in immediate need of the following items:
